

## 1. Accessories

### Earbuds

### Eartips

### Charging case

### USB-A to USB-C charging cable

## 2. How to wear

Insert each earbud into your ear and ensure the microphones are pointed towards your mouth. The earbuds' LED lights are facing up.

### 2.1 Changing eartips

For the optimal audio and ANC experience, it is recommended to try each of the different eartips sizes. The fit should feel light and comfortable in your ear. The medium eartips are pre-mounted on the earbuds.

When attaching new eartips, ensure the oval mounting tip on the earbud is aligned with the oval attachment on the eartips. Press the eartips firmly onto the ear.

## 3. How to charge

Get up to 5 hours on a single charge with ANC. Total charge of up to 20 hours with the charging case.

### 3.1 Charging the earbuds

Place the earbuds in the charging case and close the lid. It takes up to 1.5 hours to fully recharge the earbuds.

When the charging case is opened, the LEDs on the earbuds will light up red. LED light dims when battery is fully charged.

### 3.2 Low power shut off

When the battery voltage is below 3.2V, the earbuds will turn off.

### 3.3 Battery level

Battery status is indicated next to Bluetooth status on the connected phone.

## 4. What the LEDs mean

### Earbuds status

- ☀ OFF (red LED flashes 1 time and turns off).
- ☀ ON (blue LED flashes every 1 second).
- ☀ Factory reset succeeded (purple LED blinks)
- ☀ **Charging** Red LED lights up.
- **Fully Charged** Red LED dims.

Pairing mode: Left earbud blue LED flashes

Pairing Success: Left earbud blue LED goes dark

Charging case has 4 white LEDs flashing indicating charging activity. When charging reaches 100%, all 4 LEDs light up and stop flashing.

## 5. How to pair

### 5.1 Left/ Right mutually connects

Remove earbuds from case, go to your smartphone settings and enable Bluetooth pairing. Look for "PineBuds Pro" and establish the pairing process.

- a. During peer pairing mode, left earbud LED alternates in red + blue color.  
Right earbud LED blinks blue color every 5 seconds.
- b. When peer-pairing is successful, **BOTH** earbuds LEDs blink blue every 5 seconds.

### 5.2 Peer - connected

Power on the earbuds by removing them from the charging case. Left earbud LED blinks blue indicating awaiting pairing with device.

> Once pairing with phone is successful, LED blinks blue color every 5 seconds.

### 5.3 Master/slave switching

1. Pair earbuds with phone, then place earbuds to charging case.
2. Then remove any single earbud and becomes Master.
3. Insert Master earbud in charging case, and remove the Slave earbud, Slave earbud will resume connection with phone.

### 5.4 Disconnect from pairing

1. Place earbuds in charging case.

> It will disconnect from the phone. Earbuds enter pairing mode and can be paired with new devices nearby.

> If the link loss is less than 5 minutes, earbuds try to reconnect with the phone. If it exceeds 5 minutes, earbuds will turn off.

## 6. How to use

### 6.1 Powering the earbuds ON/ OFF

To turn ON the earbuds, remove them from the charging case.

If outside the charging case, press buttons for 5 seconds.

> Blue LED flashes 1 second.

> Power ON.

To turn OFF earbuds, place them inside the charging case.

If not putting inside the charging case, press button for 5 seconds.

> Red LED flashes 1 second.

> Power OFF.

### **6.4 Advanced ANC**

**Regular ANC Mode:** Offers 25dB of noise reduction.

**Super ANC Mode:** Offers 45dB of noise reduction.

Left button      ANC

3 taps on left button cycles through ANC modes:

ANC (25dB) on > ANC off > HearThrough > SuperANC (45dB) on

## continue **How to use**

### **6.5 HearThrough**

HearThrough lets you pay attention to your surroundings when engaging in conversation or outside a call, without needing to remove the earbuds. The microphones pick up surrounding sounds and transmit them to the speakers.

### **6.6 Mono earbud use**

Either earbud can be used individually for mono music playback or calls. When used as a mono earbud, the earbud retains its current button functionality. To use either earbud as a mono earbud, place one in your ear and the other earbud in the charging case. You may need to tap the button on the earbud to activate mono earbud use.

### **6.7 Sleep mode**

To conserve battery, the earbuds will automatically power off when they are out of range of your mobile device for more than 5 minutes and are not in the charging case, or when they have been inactive for more than 5 minutes. To power the earbuds on, press the buttons for 5 seconds.

### **6.8 Reset the earbuds**

Resetting the earbuds clears the list of paired devices and resets all settings.

1. Remove one earbud from charging case, press button for 5 seconds until LED turns red and earbud shut down. Repeat same steps on the other earbud.
2. Press button on both earbuds until LED flashes red and blue. Tap button 5 times until LED flash purple and then turn off.
3. Place both earbuds in the charging case for 30 seconds before reuse.
